Issued at Halifax, Nova Scotia, this 8th day of November, 2010.

Elaine Wagner, Clerk of the Board

1 **The following IRs are for CI#11004 Canaan Road Circuit Breaker Additions**

3 **IR-1:**

4 Reference the capital approval sheet

- 5 a) Under reasons for variance, etc, NSPI states that the reason for the increase is mostly
6 due to the requirement for a new radio link. Please explain why this new radio link is
7 required.
- 8 b) Please provide the additional cost of the new radio link including detailed backup for the
9 estimate.
- 10 c) The comment "The increased amount of the project from ACE is mostly due to the
11 requirement for a new radio link" is also included in the capital approval sheet for
12 CI#38819. Please explain why this statement is in CI#38819.
- 13 d) Are all the incremental cost for the new radio link included in CI#11004? If not, please
14 explain and provide the amount of the increase by each work order submitted for the
15 Digby wind project.

17 **IR-2:**

18 Please provide a copy of the Canaan Road substation single line diagram as it presently exists
19 and one that shows the configuration when this project is complete. Indicate clearly the
20 changes resulting from this work order.
