Issued at Halifax, Nova Scotia, this 29th day of April, 2019.

Clerk of the Board

Request IR-1

Please provide NSP's most current avoided costs for both energy and capacity from years 2020-2040.

Request IR-2

Have you done any analysis on the maximum cost-effective level of achievable efficiency?

- a. Please provide costs and savings by year from this scenario
- b. Please provide all analyses and workpapers supporting these values
- c. If avoided costs are different from those provided by interrogatory one, please provide these avoided costs and explain the reasons for the differences.

Request IR-3

Please provide any analysis and workpapers related to the scenario Synapse analyzed in the 2018 GUO.

- a. Please provide the avoided costs used by Synapse in this report
- b. Do you believe that the scenario that Synapse looked is not cost-effective? If so, please provide all assumptions, rationale, analysis and workpapers supporting that assertion.

Request IR-4

Please provide all analysis and workpapers associated with the latest rate analysis and bill impact analysis performed for the preferred plan, and any other higher or lower scenarios that NSP has analyzed.

Request IR-5

Do you believe that it is possible for E1 to become a "leading" program administrator? Why or why not?

Request IR-6

Please provide the avoided costs used in the 2014 IRP.

Request IR-7

Please provide all analyses and workpapers of any scenarios besides the preferred plan that would result in a lower total revenue requirement for NSP.
