Issued at Bedford, Nova Scotia on this 6th day of May, 2022

1 **Request IR-1:** Please refer to the 2021 M10473 DSM Savings Verification Report, Table 2: First-
2 Year Net Energy Savings at Generator on Page 15 and provide this Table with an extra column
3 containing 2021 first-year net energy savings targets provided by EfficiencyOne.
4

5 **Request IR-2:** Please refer to the 2021 M10473 DSM Savings Verification Report, Page 30. The
6 report states that regarding the Green Heat component, “Installation rates are assumed 100%
7 due to the high cost of the measures. Also the chance of the measure being uninstalled is highly
8 unlikely.”

- 9 a) Have any surveys or other studies been conducted to verify the accuracy of the 100%
10 installation assumption?
11 b) Please explain the assumption of the measure removal being “highly unlikely.”
12

13 **Request IR-3:** Please refer to the 2021 M10473 DSM Savings Verification Report, Pages 37-39.
14 Please provide savings targets and verified savings of both net energy and net demand for the
15 following programs in the years 2020 and 2021 for:

- 16 a) BNI Customer Incentives Program
17 b) BNI Energy Management Information Systems (EMIS)
18 c) BNI Strategic Energy Management (SEM)
19
