Re: 2025 Evergreen IRP Action Plan and Roadmap Update (M12247) – NS Power Responses to Information Requests

Dear Ms. Henwood:

On June 24, 2025, Nova Scotia Power Inc. (NS Power, Company) received Information Requests (IRs) from the Nova Scotia Energy Board (NSEB), Board Counsel consultant Synapse, the Consumer Advocate, the Small Business Advocate, the Industrial Group, Energy Storage Canada, and Natural Forces, regarding the above noted matter. Please find enclosed NS Power's responses to those IRs.

Request for Confidentiality

Pursuant to Rule 12 of the Board Regulatory Rules, NS Power requests partial confidential treatment of CA IR-3 Attachment 1. NS Power's support for its request is provided below in accordance with Rule 12(4).

CA IR-3 Attachment 1 contains fuel pricing data which is considered commercially sensitive. Release of this information would represent a real and substantial risk of harm to NS Power's competitive position, which could ultimately cause increased cost for ratepayers.

Kind regards,

Mark Peachey
Manager, Regulatory System Planning & Innovation
