Re: M12247 - Evergreen IRP Action Plan and Roadmap Update – Refile of Natural Forces IR-1 Attachment 1

Dear Ms. Henwood:

On July 15, 2025, Nova Scotia Power Incorporated (NS Power, Company) filed its responses to intervenor Information Requests (IR) regarding the above noted matter.

Subsequently, NS Power has discovered an error in Natural Forces IR-1 Attachment 1 as originally submitted.

NS Power has corrected the “2030 – Curtailment Peak” tab data set. The original generation values under the columns titled Wind, Solar, Maritime Link Block, HFO Conversion, and Battery were misaligned. The corrected version now places the correct data sets under their corresponding generation columns.

Accordingly, the Company is submitting a corrected Natural Forces IR-1 Attachment in PDF format. The Company is also providing the attachment in Excel format.

Kind regards,

Mark Peachey
Manager, Regulatory System Planning and Innovation
