Jennifer Power
Senior Regulatory Counsel
Nova Scotia Power Incorporated
P.O. Box 910
Halifax, NS B3J 2W5

jennifer.power@nspower.ca

Dear Ms. Power:

M12339 – Renewall Energy Inc. - Request for Tariffs for the Renewable to Retail Market

This is further to Renewall Energy Inc.'s request for the Board's directions and an expedited process to either amend the existing renewable-to-retail tariffs or create a new tariff to enable distribution-connected generation and net billing. The request was made under s. 3G(1) of the *Electricity Act*, S.N.S. 2004, c. 25 and s. 83(1) of the *Public Utilities Act*, R.S.N.S. 1989, c. 380.

The Board will establish a process and timeline for this matter but would like a response to the issues raised by Renewall from NS Power before doing so. As such, NS Power is directed to file a response with the Board no later than **July 23, 2025**.

Alternatively, the Board notes that the development of the existing renewable-to-retail tariffs under s. 3G(1) required stakeholder consultation. If Renewall and NS Power believe the concerns that Renewall raised may benefit from stakeholder consultation, then instead of providing an immediate response as requested above, NS Power may initiate a stakeholder process, as expeditiously as possible, to address the matters raised by Renewall. In this case the Board should be advised of Renewall's and NS Power's agreement to such a process and the anticipated timelines for stakeholder consultation by **July 23, 2025**.

If a stakeholder process is undertaken and leads to a consensus agreement, NS Power should file that agreement with the Board. The Board will then establish a process to review and, if appropriate, approve the agreement and any new tariffs or revisions. Failing such an agreement, NS Power should provide its response to the issues raised by Renewall as soon as possible following the conclusion of the stakeholder process and the Board will then establish a timeline for considering the matter.

Yours very truly,

Crystal Henwood
Clerk of the Board
