NOVA SCOTIA ENERGY BOARD

C/O CRYSTAL HENWOOD (CRYSTAL.HENWOOD@NOVASCOTIA.CA)

Dear Ms. Henwood,

RE: SOLAR NOVA SCOTIA (SNS) - NOTICE OF INTERVENTION - M12349

SNS is a not-for-profit society whose mission is to promote and facilitate the adoption of solar energy in Nova Scotia. We believe that all Nova Scotians should have more opportunity to harness technology and adapt their behaviours to play a more pro-active role in the energy transition. Solar electricity – whether stand-alone, or integrated with load or storage – is one option for Nova Scotians to do this while contributing to the province's 80% renewable electricity and greenhouse gas emissions reduction targets, and other government policy objectives.

The issues which SNS may address in the NS Power 2025 Load Forecast (M12349) would include the role of customer-sited solar energy and energy storage as it relates to the province's long-term supply-mix, demand-side flexibility and system planning, and/or other issues as established by the Board.

Contact information for SNS representatives is as follows:

- Roby Douglas, Chair Industry Committee (rdouglas@naturalforces.ca)

Thank you for the opportunity to participate in this important proceeding.

Very best regards,

A handwritten signature in black ink, appearing to read "Roby Douglas".

Roby Douglas, Chair of the SNS Industry Committee

On behalf of the SNS Board of Directors,
