Ms. Crystal Henwood
Clerk of the Board
Nova Scotia Energy Board
1601 Lower Water Street, 3rd Floor
Halifax, Nova Scotia
B3J 3P6

Dear Ms. Henwood:

RE: NSP Maritime Link Incorporated (NSPML) Long Term Asset Management Plan (LTAMP)

In the Nova Scotia Energy Board's (NSEB, Board) Decision on the Application for Approval of its 2026 Revenue Requirement and Cost Assessment (M12394), at paragraph 36, the Board directed NSPML as follows:

> The Board agrees and directs NSPML to provide quarterly status reports on the commercial in-service LTAMP, with the first report due July 31, 2026. The quarterly reports are to be filed with the Board until the commercial in-service LTAMP and related true-up application is filed with the Board.

NSPML provided an update in its Q2 Quarterly Report on July 6, and requested permission from the NSEB that it accept the update in this already-established quarterly report process as compliance with the direction in M12394. As NSPML has not as of this date received direction from the Board in regard to this request, NSPML provides the following confidential update to augment the information contained in its filing of July 6, 2026:

[redacted]

NSPML will provide its next LTAMP update to the Board in its regular Q3 Quarterly Report due on October 15, 2026, unless the Board directs that a separate report be provided focused solely on LTAMP.

Regards,

Shellie Woolham
Director, Regulatory Affairs and Governance
