Michael Willet
Senior Director, Regulatory
Nova Scotia Power Inc.
PO Box 910
Halifax, NS B3J 2W5

Dear Mr. Willet:

M12551 – 2026 Annually Adjusted Rates – Stakeholder Engagement Update (RtR Tariffs)

The Board panel assigned to this matter, consisting of Richard J. Melanson, LL. B., Panel Chair, Jennifer L. Nicholson, CPA, CA, ICD.D., and Bruce H. Fisher, MPA, CPA, Members, has reviewed your August 31, 2026, letter responding to the Board's July 15, 2026, letter.

At this stage, it appears many of the issues involving the RtR Tariffs are subsumed in other matters or are still under review.

Specifically referring to the Annually Adjusted Rates (AARs) process, NS Power is not seeking tariff amendments to process the Board's implementation cost decisions arising from Matters M12588 and M06214. The Board understands these costs will be addressed under existing tariff provisions in the 2027 AAR application.

The follow-up requests in this matter originated with the 2026 AAR decision. The Board anticipates the 2027 AAR application will be filed in less than one month. Accordingly, the 2026 AAR process has run its course.

Yours very truly,

for Crystal Henwood
Clerk of the Board
