Nova Scotia Utility and Review Board
1601 Lower Water Street, 3rd floor
P.O Box 1692, Unit M
Halifax Nova Scotia, B3J 3P6

Dear Ms. Henwood:

M10293 – Renewall Energy Inc – Compliance Reporting

Please accept the following document as Renewall's Compliance Reporting for the compliance period of 2025, with the original parameters included for context.

During this compliance period, Renewall did not generate or purchase any renewable low-impact electricity and did not serve any customers.

Thank you for your time and we welcome any questions or comments from the Board.

Sincerely,

Daniel Roscoe, P.Eng
Renewall Energy Inc.
President

**Board Electricity Retailers Regulations (Nova Scotia)
COMPLIANCE REPORTING**

1. Total purchases or generation for renewable low-impact electricity, or combination

Renewall did not purchase or generate any renewable low-impact electricity to date.

2. (a) Total, in kilowatt-hours, of all renewable low-impact electricity sales to customers

Renewall did not sell any renewable low-impact electricity to date.

(b) Total number of customers under contract, differentiated by NS Power's rate classes

Renewall did not serve any customers during the compliance period.

(c) Total purchases of renewable low-impact electricity from renewable low-impact electricity generators at the point of interconnection

Renewall did not purchase any renewable low-impact electricity from renewable low-impact generators at the point of interconnection during the compliance period.

(d) Provide copies of the written confirmation from the renewable low-impact electricity generators documenting quantities of renewable low-impact electricity purchased by the license holder

During the compliance period, Renewall did not purchase any renewable low-impact electricity and, therefore does not have written confirmation from the generators.

(e) Total generation of renewable low-impact electricity from renewable low impact generations facilities owned or operated by the licence holder at the point of interconnect

There was no generation of renewable low-impact electricity during the compliance period.

(f) Transmission and Distribution losses

There were no transmission and distribution losses.

(g) Provide a reconciliation of the net surplus or deficit of renewable low-impact electricity sales with respect to renewable low-impact electricity purchases, generation or combination of purchases and generation, and transmission and distribution losses

There was no net surplus or deficit during this compliance period as there were no purchases or generation of renewable low-impact electricity.
