Re: M12694 - January 23-26, 2026 Cold Weather Event Report - Extension Request

Dear Ms. Henwood:

On February 4, 2026 the Nova Scotia Energy Board directed NS Power to file a report by February 26, 2026 regarding the cold weather event which occurred in the province from January 23-26, 2026.

NS Power is in the process of compiling the information for this report but requires additional time to complete the report as key resources have been committed to the various restoration efforts arising from the storm activities this month.

NS Power requests an extension to Friday, March 6, 2026 for filing this report.

As is always the case, if NS Power is able to file the report at an earlier date, it will endeavor to do so.

Yours truly,

Jennifer Ross,
Director, Regulatory Planning & Compliance
