

NOVA SCOTIA ENERGY BOARD

IN THE MATTER OF THE PUBLIC UTILITIES ACT

- and -

IN THE MATTER OF a review of **NOVA SCOTIA POWER INCORPORATED'S** 2025 Annual Performance Standards Report

BEFORE:

Stephen T. McGrath, K.C., Chair
Roland A. Deveau, K.C., Vice Chair
Steven M. Murphy, MBA, P.Eng., Member
Richard J. Melanson, LL.B., Member
Jennifer L. Nicholson, CPA, CA, ICD.D., Member

ORDER

Nova Scotia Power Incorporated (NS Power) filed its 2025 Annual Performance Standards Report with the Nova Scotia Energy Board on March 31, 2026.

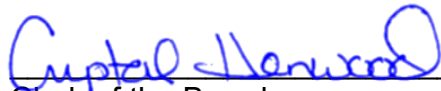

The Board issued its Decision on October 15, 2026, accepting the annual report.

The Board has the following directives in this matter:

1. To include, in the 2026 Annual Performance Standards Report, the CKAIFI and CKAIID results for the chronic circuits identified in this report, together with the 2026 average CKAIFI and CKAIID values plus two standard deviations across all NS Power circuits.
2. To include the following information and analysis in future performance standards reports:
 - a consolidated presentation of the contribution of loss-of-supply events to outage duration, including regional context and, where available, trends over time;
 - periodic summary reporting of substation-level interruption impacts, to identify areas of concentrated or recurring impact;

- structured identification of recurring transmission-related constraints or supply dependencies that materially influence feeder-level reliability; and
 - disaggregation of planned outage impacts (by feeder or substation groupings).
3. To include, in its 2026 Performance Standards Report, a more detailed description of its practices in relation to planned outages, particularly in respect of customer notification, coordination and scheduling.

DATED at Halifax, Nova Scotia, this 15th day of October 2026.

Clerk of the Board
