NS POWER ACCOUNT [REDACTED]

This image is part of the ongoing investigation into NS POWER and more documented evidence against them they are charging me too much

This is what my bills looked like in winter 2 years ago. Your company is at fault for overcharging me for power i never used despite your famous saying of otherwise. I stopped using my dryer in the summer since this bill and my power as gone up 4x. A lot of people have the same complaint as well. My neighbor being charged power for a house that was torn down a year ago. I DO NOT use more power than 2 years ago i use less even if it's only a small difference like not using a dryer for 8 months of the year. Bill should have not rising 4x the amount.
