Nova Scotia Energy Board
1601 Lower Water Street, 3rd Floor Halifax,
Nova Scotia B3J 3S3

**Application for Approval of the Green Choice Power Purchase Agreement ("PPA")
Under the Renewable Electricity Regulations ("Application")**

Dear Ms. Henwood,

Power Advisory LLC ("Power Advisory") was appointed as a Procurement Administrator ("PA") by Order in Council 2026-45, dated February 17, 2026, to procure renewable low-impact electricity in relation to the Green Choice Program. The objective of this procurement process is the awarding PPAs. Under Section 37(1) of the *Renewable Electricity Regulations* as part of our responsibilities as the PA, we are applying for approval by the Nova Scotia Energy Board ("Board") of the standard form of PPA before conducting the procurement. In this filing, Power Advisory is requesting the Board approve the standard form PPA that is attached to the Application for approval of the PPA as Appendix A.

We request that the Board review and approve the terms and conditions of the standard form PPA on an expedited basis. The standard form PPA is similar to the PPA as the Board approved in its decision and order for Matter 11455 dated May 28, 2024. For the Board's convenience, a blackline of the standard form PPA against the Board-approved PPA in Matter 11455, is included in Appendix B of the Application.

We request authority to make non-substantive changes to the standard form PPA that we consider necessary or advisable after Board approval and changes for the timing of curtailment compensation payments once Nova Scotia Power Inc. has agreed on a process with the Independent Electricity System Operator. We will provide notice on the procurement website <https://nova-scotia-gcp.com/> that we have filed this Application with the Board for the approval of the standard form PPA.

We welcome the opportunity to provide additional information to the Board to assist in its review of this Application. Thank you for your assistance in this matter. Nothing in this Application is confidential.

Sincerely,

POWER ADVISORY LLC
