Issued at Halifax, Nova Scotia, this 21st day of October, 2026.

Crystal Henwood, Clerk of the Board

Request IR-1:

What will be the estimated annual maintenance, repair and replacement costs and sustaining costs for this project after it is commissioned?

- a) Please confirm that all these costs are the responsibility of Maritime Launch Services.

Request IR-2:

Please confirm any future decommissioning costs are the responsibility of Maritime Launch Services.

Request IR-3:

Please confirm whether the Maritime Launch Services contract specifies that construction overruns, delay damages, permitting deficiencies, financing shortfalls, and site control failures are the developer's responsibility and not recoverable from NS Power's ratepayers.

Request IR-4:

Please provide the provisions in the contract that require Maritime Launch Services to pay for the actual costs incurred by NS Power to develop the project, including any equipment costs as well as all future maintenance, repair/replacement expenses and decommissioning costs.

Request IR-5:

Once built and commissioned, will the project also provide benefits to NS Power's customers generally or is it only to benefit Maritime Launch Services?

- a) If any benefits to other NS Power customers, please describe how that benefit is accounted for in the current submission.

Request IR-6:

If the NS Power energy grid encounters any situation where it is reaching capacity, is there a plan for power priority between the Maritime Launch Services site and other NS Power users in the area?

- a) If so, please provide.
- b) If not, why not?
